The screenshot shows the PTInput 2010 software interface. The main window displays a bridge model with three spans: Span 1 (34.00 ft), Span 2 (29.00 ft), and Span 3 (34.00 ft). A dialog box titled "Effective Flange Width" is open in the foreground. The dialog box includes a diagram of a T-beam section with dimensions b_f and b_e . It also contains a legend and a table of data.

Effective width calculation method: AC 318 User Input European EC2
